Get Through M R C P s ych Paper A 2

The structure of the M R C P s ych examination has changed significantly. This book is specifically written for the new exam, providing 250 practice best-of-five multiple choice questions (MCQs) and 100 extended matching item (EMI) questions for Paper III. It contains clear, concise answers to questions, along with explanatory notes and further reading for each topic. It gives practical advice on the format and content of the examination and techniques for answering questions. It is comprehensive and authoritative: both authors are members of the Psychiatric Trainees' Committee of the Royal College of Psychiatrists.

Revision Notes for Mrcpsych Paper 1

The past decade has seen several revisions to the M R C P s ych examinations but the latest changes have been the most radical. It is now a three part written examination along with a clinical assessment of skills and competencies. This has changed the focus of the new' M R C P s ych Paper I, which now includes two thirds one-best-item-from-five' multiple choice questions (MCQs). This collection of one-best-item-from-five' style multiple choice questions mirrors the new format for the exam. Its companion volume Extended Matching Items for the M R C P s ych Examinations Part 1 by Michael Reilly and Bangaru Raju remains relevant for the new
format where EMIs make up one third of the questions. Together, these two guides thoroughly prepare you for the revised format, incorporating the new areas of study such as basic ethics, philosophy and history of psychiatry, and stigma and culture. With varying degrees of question difficulty, a wide-range of styles and topics, and full explanations of answers overleaf, MRCPsych Paper I One-Best-Item MCQs is ideal for examination preparation and self-study.

Sciences Basic to Psychiatry

The MRCPsych examinations, conducted by the Royal College of Psychiatrists are the most important exams for psychiatric trainee to achieve specialist accreditation. Written by authors with previous exam experience and edited by the distinguished team behind Revision Notes in Psychiatry, Get Through MRCPsych Paper A: Mock Examination Papers provides candidates with the most realistic and up-to-date MCQ and EMIs, closely matched to themes appearing most often in the Paper A exam.

The New MRCPsych Paper I Practice MCQs and EMIs

Multiple choice questions (MCQs) and extended matching item (EMI) questions are the format of question used in undergraduate psychiatry written exams in the UK, Ireland, Australia and New Zealand. This book consists of a collection of MCQs and EMIs covering all areas of psychiatry and will help medical students to revise for and optimise their performance in undergraduate exams. MCQs are the 'best of five' style, as used in many current undergraduate psychiatry exams ('true' or 'false' style questions are no longer used). All questions are in keeping with the latest research and clinical concepts in psychiatry. Questions are grouped by subject and get progressively harder through each chapter. The answers are given along with explanations, plus references and suggestions for further reading. Students from other countries can also benefit from the self-testing format of the book as practising MCQs is a superb way to reinforce knowledge.

FRCS General Surgery

The structure of the MRCPsych examination has changed significantly. This book is specifically written for the new exam, providing 250 practice best-of-five multiple choice questions (MCQs) and 100 extended matching item (EMI) questions for Paper II. It contains clear, concise answers to questions, along with explanatory notes and further reading for each topic. It gives practical advice on the format and content of the examination and techniques for answering questions. It is comprehensive and authoritative: both authors are members of the Psychiatric Trainees' Committee of the Royal College of Psychiatrists. This is an essential revision aid for candidates sitting Paper II of the MRCPsych examination.

Get Through MRCPsych: MCQs for Paper 2
This book is intended for psychiatric trainees sitting the CASC component of the MRCPsych exam. Written by authors with recent exam experience and long-term expertise in the field, the text provides 175 stations closely matched to the subjects that appear in the actual exam, along with concise synopses and guidelines for how to target your revision to enable recall of the most relevant information.

Best of Five MCQs for the Acute Medicine SCE

First FRCR Anatomy: Mock Papers offers the most up-to-date and comprehensive coverage of practice cases for trainees preparing for the First FRCR Anatomy exam. Chapters presented as 15 complete mock papers, covering the full range of imaging modalities. Featuring a wealth of practice cases covering all the key topics, this book provides the essential revision tool to maximise chances of exam success. Key Points 300 high quality images, reflecting the breadth of topics encountered in the actual exam 15 mock papers to enable trainees to practice and improve exam technique Highly illustrated to simplify complex anatomy and improve understanding Edited by highly experienced radiological anatomist, Professor Jamie Weir Complements First FRCR Anatomy: Practice Cases – the complete FRCR Anatomy revision package

Revision MCQs and EMIs for the MRCPsych

Written by Johns Hopkins University School of Medicine faculty and surgical residents, the second edition of The Johns Hopkins ABSITE Review Manual delivers comprehensive coverage of the American Board of Surgery In-Training Examination through two full-length practice tests. Both tests are based on actual key words from recent ABSITEs, and are accompanied by test review sections, which go over every practice test question and answer, providing rationales behind surgical decision-making. ABSITE-style question format familiarizes readers with the test’s presentation and content. This edition features twice the number of questions as in the previous edition, offering even more opportunities for self-paced review. Rationales for correct and incorrect responses help to identify the test-taker’s strengths and weaknesses. This book is ideal not only for those preparing for the ABSITE, but also for surgeons and residents studying for the general surgery qualifying exam and for all surgical residents seeking to review key topics during rotations.

PCB Design for Real-World EMI Control

MRCPsych Paper B: 600 MCQs and EMIs offers the most up-to-date and comprehensive collection of practice questions for trainees preparing for the new MRCPsych Paper B. Questions are mapped to the syllabus to deliver structured revision in all the key topics, allowing readers to focus on areas of weakness. Featuring a wealth of practice questions and answers, this book is an essential revision tool to maximise the chances of exam success.
The New M RCPsych Paper III Practice MCQs and EMIs

What are the indications for necrosectomy? How do you perform an EUA for acute peri-anal sepsis? What do you understand by the term Early Goal-Directed Therapy (EGDT)? Remember: this is a consultant's exam, and giving a range of options is not good enough. You must tell the examiner what you as a consultant are going to do. The FRCS is a uniquely challenging prospect; highly detailed, wide-ranging and encompassing both theory and practice. Preparation for this exam can be very difficult, and resources tailored to it are scarce. As the consolidated notes of a recent successful candidate, this book is an essential resource when preparing for the viva. The wide variety of questions require you to define, diagnose or choose between treatment options, while MCQs and SBAs help you to objectively evaluate your progress - a unique supplement to your study plan. Answers provided are comprised of an invaluable combination of detailed written answers and lists that will remind you of key points and help you structure your preparation.

The New M RCPsych Paper 1 Practice MCQs and EMIs

The structure of the M RCPsych examination has changed significantly. This book is specifically written for the new exam, providing 250 practice best-of-five multiple choice questions (MCQs) and 100 extended matching item (EMI) questions for Paper III. It contains clear, concise answers to questions, along with explanatory notes and further reading for each topic. It gives practical advice on the format and content of the examination and techniques for answering questions. It is comprehensive and authoritative: both authors are members of the Psychiatric Trainees' Committee of the Royal College of Psychiatrists. This is an essential revision aid for candidates sitting Paper III of the M RCPsych examination.

FRCS

Comprising of best of five multiple choice questions, detailed answers and separate revision notes, Revision Notes for the Respiratory Medicine Specialty Certificate Examination is the only book you need to prepare for this important examination.

MCQs for ENT

Proper design of printed circuit boards can make the difference between a product passing emissions requirements during the first cycle or not. Traditional EMC design practices have been simply rule-based, that is, a list of rules-of-thumb are presented to the board designers to implement. When a particular rule-of-thumb is difficult to implement, it is often ignored. After the product is built, it will often fail emission requirements and various time consuming and costly add-ons are then required. Proper EMC design does not require advanced degrees from universities, nor does it require strenuous mathematics. It does require a basic
understanding of the underlying principles of the potential causes of EMC emissions. With this basic understanding, circuit board designers can make trade-off decisions during the design phase to ensure optimum EMC design. Consideration of these potential sources will allow the design to pass the emissions requirements the first time in the test laboratory. A number of other books have been published on EMC. Most are general books on EMC and do not focus on printed circuit board is intended to help EMC engineers and design design. This book engineers understand the potential sources of emissions and how to reduce, control, or eliminate these sources. This book is intended to be a 'hands-on' book, that is, designers should be able to apply the concepts in this book directly to their designs in the real-world.

Get Through M RCPsych CASC

The M RCPsych examinations, conducted by the Royal College of Psychiatrists are the most important exams for psychiatric trainee to achieve specialist accreditation. Written by authors with previous exam experience and edited by the distinguished team behind Revision Notes in Psychiatry, Get Through M RCPsych Paper A : Mock Examination Papers provides candidates with the most realistic and up-to-date MCQ and EMIs, closely matched to themes appearing most often in the Paper A exam.

Revision Notes in Psychiatry

Featuring an invaluable collection of revision MCQs and detailed explanatory answers referenced to major journals and specialist textbooks, Get Through M RCPsych: MCQs for Paper 2 is the essential revision book for trainee psychiatrists.

M RCPsych: Passing the CASC Exam

Genre studies and genre approaches to literacy instruction continue to develop in many regions and from a widening variety of approaches. Genre has provided a key to understanding the varying literacy cultures of regions, disciplines, professions, and educational settings. GENRE IN A CHANGING WORLD provides a wide-ranging sampler of the remarkable variety of current work. The twenty-four chapters in this volume, reflecting the work of scholars in Europe, Australasia, and North and South America, were selected from the over 400 presentations at SIGET IV (the Fourth International Symposium on Genre Studies) held on the campus of UNISUL in Tubarão, Santa Catarina, Brazil in August 2007—a largest gathering on genre to that date. The chapters also
represent a wide variety of approaches, including rhetoric, Systemic Functional Linguistics, media and critical cultural studies, sociology, phenomenology, enunciation theory, the Geneva school of educational sequences, cognitive psychology, relevance theory, sociocultural psychology, activity theory, Gestalt psychology, and schema theory. Sections are devoted to theoretical issues, studies of genres in the professions, studies of genre and media, teaching and learning genre, and writing across the curriculum. The broad selection of material in this volume displays the full range of contemporary genre studies and sets the ground for a next generation of work.

Get Through M RCPsych Paper A1

The new M RCPsych examination has changed significantly. Instead of two distinct Parts, there are now three written papers and one clinical exam. This book is completely up-to-date and takes into account the new format. It provides 250 practice best-of-five multiple choice questions (MCQs) and 100 Extended Matching Items questions (EMIs) for Paper I. It contains clear, concise solutions to each question as an aid to revision. It is comprehensive and authoritative, with both authors being members of the Psychiatric Trainee's Committee of the Royal College of Psychiatrists. As well as being an essential revision aid for candidates sitting Paper I, it is also useful when preparing for Papers II and III because of the many similarly themed questions.

The New M RCPsych Paper III Practice MCQs and EMIs

The M RCPsych examinations, conducted by the Royal College of Psychiatrists are the most important exams for psychiatric trainee to achieve specialist accreditation. Written by authors with previous exam experience and edited by the distinguished team behind Revision Notes in Psychiatry, Get Through M RCPsych Paper A: Mock Examination Papers provides candidates with the most realistic and up-to-date MCQ and EMIs, closely matched to themes appearing most often in the Paper A exam.

The New M RCPsych Paper II Practice MCQs and EMIs

As the first revision text aimed specifically at the Knowledge-Based Assessment, Essential Revision Notes for Cardiology KBA is the cornerstone of your revision for this new and compulsory examination. Each chapter exactly maps the core cardiology training curriculum, giving measurable assurance that you are getting the information you need to pass. Each chapter is written by a senior cardiology trainee in collaboration with a senior consultant who has expertise in that specific field, ensuring that the content is both authoritative and accessible. Drawing on the latest guidelines and documents, the concise, bullet-pointed layout allows easy access to and digestion of the key points you'll need during revision. Numerous tables, boxes and figures make this the ideal accompaniment to retaining the large and varied amount of information needed to pass the examination.
MCQs in Psychiatry for Medical Students

This book is specifically written for the new exam, providing 250 practice best-of-five multiple choice questions (MCQs) and 100 extended matching item (EMI) questions for Paper II. It contains clear, concise answers to questions, along with explanatory notes and further reading for each topic. It gives practical advice on the format and content of the examination and techniques for answering questions. It is comprehensive and authoritative: both authors are members of the Psychiatric Trainees' Committee of the Royal College of Psychiatrists. This is an essential revision aid for candidates sitting Paper II of the MRCPsych examination.

The Johns Hopkins ABSITE Review Manual

A hilarious satire about college life and high class manners, this is a classic of postwar English literature. Regarded by many as the finest, and funniest, comic novel of the twentieth century, Lucky Jim remains as trenchant, withering, and eloquently misanthropic as when it first scandalized readers in 1954. This is the story of Jim Dixon, a hapless lecturer in medieval history at a provincial university who knows better than most that “there was no end to the ways in which nice things are nicer than nasty ones.” Amis’s scabrous debut leads the reader through a gallery of emphatically English bores, cranks, frauds, and neurotics, with each of whom Dixon must contend in one way or another in order to hold on to his cushy academic perch and win the girl of his fancy. More than just a merciless satire of cloistered college life and stuffy post-war manners, Lucky Jim is an attack on the forces of boredom, whatever form they may take, and a work of art that at once distills and extends an entire tradition of English comic writing, from Fielding and Dickens through Wodehouse and Waugh. As Christopher Hitchens has written, “if you can picture Bertie or Jeeves being capable of actual malice, and simultaneously imagine Evelyn Waugh forgetting about original sin, you have the combination of innocence and experience that makes this short romp so imperishable.”

Lucky Jim

Best of Five MCQs for the Endocrinology SCE is designed specifically for this new high-stakes exam. It contains over 300 best of five questions with explanatory answers, each accurately reflecting the layout of questions in the exam. The book is divided into six subject areas, covering all the main themes of the exam, and providing a thorough assessment of the candidate's
endocrinological knowledge. Uniquely, the explanatory answers include references to guidelines and other sources to enable candidates' further reading and study.

**Best of Five MCQs for the Gastroenterology SCE**

There is a need for a concise revision guide for the FRCS General Surgery Intercollegiate exam, and this is such a book, serving as a companion for the trainee throughout the course of their six-year training rotation. It reflects the exact framework of the exam syllabus issued by the Joint Committee on Higher Surgical Training (JCHST), and contains the most recently amended guidelines. The question and answer style used is a popular and effective method which lends itself perfectly to studying either alone or as a group, wherein one acts as examiner and the other as candidate. Further, the exam is very clinically orientated, with vivas based on a clinical scenario, using patients and images as method of initiating clinical discussion. This book will act as supplementary reading for any course relating to the FRCS exit examination in general surgery. Both the authors and main contributors have passed the FRCS exam in general surgery and have many years experience in postgraduate medical education.

**Essential Revision Notes for Cardiology KBA**

Around 760 candidates sit the MRCPsych Part1 each year, with 560 taking Part 2. In the written papers basic sciences and clinical topics are given equal weight - a good knowledge of basic science is therefore essential for success. Since Sciences Basic to Psychiatry was first published in 1992, it has established itself as probably the most successful among the exam-orientated basic science texts. This new edition builds on that success by strengthening coverage in some areas, and by using better illustration to aid comprehension and learning. Features: * Revised in accordance with new exam syllabus * Clear and readable presentation of the core knowledge necessary for exam success * Particularly highly praised for the chapters on the neurosciences, genetics and statistics * Relevant for both Part 1 and Part 2 * Expansion of chapters on psychology and sociology * More illustrations than previous edition

**First FRCR Anatomy**

FRCS General Surgery: 500 SBA s and EMIs offers the most comprehensive coverage of practice questions for trainees preparing for the FRCS General Surgery exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 500 Single Best Answers and Extended Matching Items, reflecting topics encountered in the exam. Answers feature concise, case-based descriptions to consolidate knowledge. Highly illustrated to improve understanding of key concepts. Extensive evidence-based references to relate theory to clinical practice.
SBAs and EMIs for the General Surgery FRCS

Get Through MRCpsych: MCQs for Paper 1

This new revision guide with over 1500 questions, reasoned answers and links to explanatory text gives a comprehensive range of multiple choice questions (MCQs) and extended matching items (EMIs). Complete with sample papers, this book provides everything you need for the written parts of the MRCpsych and comparable higher postgraduate examinations in psychiatry. Contains over 550 MCQs and 350 EMIs divided into syllabus topics Includes full-length sample exam papers for Parts 1, 2 and 3 of the MRCpsych Challenging questions written to bring out key learning points Full, detailed answers and links to revision and remediation Prepared by experienced teachers and writers of examination questions This book is essential for all psychiatrists preparing for the written MRCpsych and similar examinations, allowing candidates to approach the exam with confidence.

Best of Five MCQs for the Endocrinology and Diabetes SCE

Any candidate for the MRCpsych or equivalent postgraduate examinations will feel challenged by the daunting breadth of the syllabus as well as by the level of detail required. Revision Notes in Psychiatry responds to that challenge by comprehensively presenting key up-to-date information across the whole spectrum of psychiatry and its scientific basis, within a clear structure. Since the highly successful publication of the first edition of Revision Notes in Psychiatry, there have been many new discoveries within most fields of psychiatry, and the subsequent updating of the MRCpsych is reflected in the second edition.

MRCpsych Paper B: 600 MCQs and EMIs

Best of Five MCQs for the Gastroenterology SCE is the first revision guide designed specifically for this new high-stakes exam. It contains 210 best of five questions with explanatory answers, each accurately reflecting the layout of questions in the exam. The book is divided into seven subject areas, covering all the main themes of the exam, and providing a thorough assessment of the candidate's gastroenterological knowledge. Where relevant, questions are illustrated with full colour photographs including endoscopic, radiological and histology images. Uniquely, the explanatory answers include references to guidelines and other sources to enable candidates' further reading and study.

MRCpsych CASC: 150 Clinical Scenarios

This book has been written specifically for candidates sitting the oral part of the FRCS (Tr & Orth) examination. It presents a
selection of questions arising from common clinical scenarios along with detailed model answers. The emphasis is on current concepts, evidence-based medicine and major exam topics. Edited by the team behind the successful Candidate's Guide to the FRCS (Tr & Orth) Examination, the book is structured according to the four major sections of the examination; adult elective orthopaedics, trauma, children’s/hands and upper limb and applied basic science. An introductory section gives general exam guidance and end section covers common diagrams that you may be asked to draw out. Each chapter is written by a recent (successful) examination candidate and the style of each reflects the author's experience and their opinions on the best tactics for first-time success. If you are facing the FRCS (Tr & Orth) you need this book.

Revision MCQs and EMIs for the MRCPsych

The new MRCPsych examination has changed significantly. Instead of two distinct parts, there are now three written papers and one clinical exam. This book is completely up-to-date and takes into account the new format. It provides 250 practice best-of-five multiple choice questions (MCQs) and 100 extended matching items questions (EMIs) for Paper I. It contains clear, concise solutions to each question as an aid to revision. It is comprehensive and authoritative, with both authors being members of the Psychiatric Trainee's Committee of the Royal College of Psychiatrists. As well as being an essential revision aid for candidates sitting Paper I, it is also useful when preparing for Papers II and III because of the many similarly themed questions.
